From the Makayas

Hi everyone, hope you and your families are well. The Makayas are all well. We have had a very busy season in the Lord. It was wonderful to have Lisa and Barb from Post Road Christian Church with us. They managed to spend sometime in the classrooms and help us paint some our furniture. We deeply appreciated having them and the gifts they gave to each one of us.

This was followed by a very intense exam time. The Kenyan system has been very exam oriented and they expect us to test our Baby Class as well. This led to preparation of Report Card and closure of the school for the kids. We still use paper and ink for all report cards so when there is a slight mistake one has to redo the whole report card.

The Staff and I then had a week of preparation and staff development. In the mornings I would go to church to lead worship for the Children's Church VBS and then Staff Development in the afternoons. You can view some of the fun we had on Facebook. The VBS led to the Children's Church leading the Easter Praise and Worship Service on Sunday morning. Hope you too had a great Easter.

The Lord continues to open doors for Prince. He is completing a Parenting Edit in partnership with Navigators. He travelled to Liasmis, an 8 hours bus ride to Eastern Kenya to document stories of disciples made for our Lord in partnership with The Timothy Initiative.

Thank you for your continual prayers, words of encouragement and financial support.

Chipso Makaya

STANDING IN THE GAP

From Justus Ngowa in Kilifi

Greetings in Jesus name. Hopeful that you are all well and pressing on with God's work. Here in Kilifi, Kenya we are doing well. This month we have continued serving God in Sunday worship service, Bible study, reaching out the community for Christ through teaching dress making and outreach to students in school. Drought is everywhere and life has become more difficult, but we thank God that he has strengthened us for his work. I beseech you brothers that you may pray with us that God may intervene in this season as most people are eagerly waiting for a good downpour of rain. We have had a difficult time with our Bible study class because of the drought. People spend much time searching for water and other times go for relief offered by the government.

Mujibu Church

We thank God that every opportunity helps us learn and understand more about our creator. Mujibu Church is growing strong from Bible study. Believers have continued meeting and edified one another for the life they are living for the kingdom. I personally feel encouraged as church members gather and pray together. Currently Mujibu Church is fundraising to reconstruct the temporary building. This activity in the church helps us to see how they are growing in their faith and service to the Kingdom. To the right is a photo of Mujibu Church.

May God bless you all as you pray and serve in His vineyard,

Brothers Justus Ngowa and Nelson Kahindi
